KOLBERG PERCUSSION

Stuttgarter Str. 157 • 73066 Uhingen • Germany • Fon +49 (0)7161 3005-30 • Fax -40 • info@kolberg-percussion.com

Standard equipment

- german set-up (low timpano on the right) or vice versa (low timpano on the left), no extra charge
- copper shell, handmade and hand-hammered, with absolute level plane, polished, with stove enamel finish (also dark baroque finish on request, no extra charge)
- head support sharp-edged or rounded
- plastic heads Remo Renaissance or other brands at your choice, also available for all outsizes
- three-times infinitely adjustable pedal, lockable in both directions by heel lever, range adjustment included, spindle made of special tempered steel
- optimal adjusted fork struts with always the largest possible fork width
- bearings and pivot points of bronze-graphite bushings, long-time maintenance free
- all blank metal parts of stainless chrome-nickel steel, high-gloss polished
- 8 ball nuts of bronze at the head tensioning screws
- angle profiled counter hoop with standard finish black-silver powder-coated (hammer blow)
- special model of fine tuner, removable so that the spindle can be used as well for crank or star handle
- coloured marking of fine tuner with depth indicator
- black-silver powder-coated timpani frame (hammer blow)
- 4 castors with brakes or sliding plugs, not height adjustable
- inclined tuning gauge
- head tensioning key SW 8
- 11 bellows
- artificial leather cover
